INTERNATIONAL TRADE LAW (H.C. – VII)

OBJECTIVE OF THE COURSE:

In this 21st century, the concept of Liberalisation, Privatisation and globalization (LPG) works beyond the trade barriers. This course helps to understand the dominant role of developed countries in exploiting the developing countries. As a matter of compliance of International Trade Practices, various bilateral and regional agreements exist in this scenario. International Trade Agreements and Conventions explore the balanced growth with the regulatory effect in transacting international trade in municipal spheres including Dispute Settlement Bodies. BANKRUPTCY AND INSOLVENCY LAWS

Objectives Of the Course

The main concern of law is the regulation and balancing of socio-economic and political interests. In regulating the economic front, law has to take into account of negative economic impact in the situations of socio-legal problems. The bankruptcy law becomes relevant in this context. The Constitution confers on the union and the states to legislate on bankruptcy-the inability to pay debts. The Indian laws contain elaborate provisions on the status of insolvent person, legal conditions of insolvency, insolvency proceedings, distribution of property of the insolvent and on litigation by and against insolvent person. These laws have to be looked at with a comparative approach. The course excludes questions of bankruptcy in relation to company and partnership since they are dealt with in the compulsory papers.
